WEATHERED FIELDSTONE
(Sandstone)

HEIGHT	LENGTH	THICKNESS
3" - 7"	5" - 15"	+/- 1"
		<i>*up to 1 1/2"</i>

BLUE RIVER
(Limestone)

HEIGHT	LENGTH	THICKNESS
2" - 8"	Random - 24"	+/- 1"

WILLOWBROOK BROWN CASTLEROCK
(Sandstone)

HEIGHT	LENGTH	THICKNESS
4" - 10"	Random	+/- 1"

RANDOM HEIGHT

Random Height veneer is a snapped stone with heights created from the natural horizontal layers in the quarry formed millions of years ago. Depending on how the stone is laid, you can achieve both an elegant or rustic/unrefined look. Available in both flat & corner pieces.

Stone swatches shown in this brochure represent a general range of shapes & colors of each stone profile. The stone pieces shown in the product swatches may have been dressed for display purposes. We suggest you look at product samples before selecting colors.

CHATEAU BAY
(Limestone)

HEIGHT	LENGTH	THICKNESS
2" - 8"	Random - 24"	+/- 1"

RANDOM HEIGHT TUMBLED

Random Height Tumbled veneer is identical to Random Height in specs & sizes, but features uniquely enhanced edges. The stone goes through a final tumbling process, to create softened edges & muted colors, giving the stone a more aged feel. Available in both flat & corner pieces.

LEDGESTONE

Ledgestone is a classic timeless stone with unique sawn heights of 2", 3" and 4". It is the perfect stone choice for indoor & exterior, residential or commercial projects. Generally, you will see this popular texture in a drystack application. Available in both flat & corner pieces.

PLATINUM
(Sandstone)

HEIGHT	LENGTH	THICKNESS
2", 3" & 4"	Random - 24"	+/- 1"

Stone swatches shown in this brochure represent a general range of shapes & colors of each stone profile. The stone pieces shown in the product swatches may have been dressed for display purposes. We suggest you look at product samples before selecting colors.

DIMENSIONAL TUMBLED

Dimensional Tumbled veneer is a classic stone that features uniquely enhanced edges. Like Random Height Tumbled, this stone goes through a final tumbling process which creates softened edges & muted colors, giving the stone a more aged feel. Available in both flat & corner pieces.

ROCKPORT BLEND
(Limestone)

HEIGHT	LENGTH	THICKNESS
2 ¼", 5" & 7 ¼"	Random - 24"	+/- 1"

Featured Product (Left Image & Bottom Image) – Dimensional Tumbled, ROCKPORT BLEND

Stone swatches shown in this brochure represent a general range of shapes & colors of each stone profile. The stone pieces shown in the product swatches may have been dressed for display purposes. We suggest you look at product samples before selecting colors.

RUSTIC CEDAR
(Limestone)

HEIGHT	LENGTH	THICKNESS
2 1/4", 5" & 7 1/4"	Random - 24"	+/- 1"

DIMENSIONAL

Dimensional veneer provides a classic stone look with its specific puzzle-like laying pattern, giving cleaner lines while still incorporating a rugged yet natural feel of stone. Dimensional veneer has a sawn top & bottom, with a split-face & split ends. Available in both flat & corner pieces.

SILLS

ThinCut™ Sills are a natural stone option for under a window or the top of a wainscot. Sills are a great way to finish the bottom of your windows to transition back to stone veneer, brick, stucco or any other exterior cladding option. They feature a sawn top, bottom, ends and back with a rugged split face.

BLUE RIVER

HEIGHT	LENGTH	WIDTH
2 1/4"	24"	3"

MOUNTAIN RIDGE

HEIGHT	LENGTH	WIDTH
2 1/4"	24"	3"

Stone swatches shown in this brochure represent a general range of shapes & colors of each stone profile. The stone pieces shown in the product swatches may have been dressed for display purposes. We suggest you look at product samples before selecting colors.
