

PANGAEA[®]

NATURAL STONE.COM

Experiencing the Pangaea® Difference

Beautifying your local community with products that work in harmony with their natural surroundings. Creating products that are intelligently designed and uniquely packaged to make the most out of your experience.

Maintaining a Healthy Planet

We do our part by being a good steward of our environment and utilizing state-of-the-art technology in energy and recycling methods.

Enriching our Communities

We are dedicated to creating opportunities for children in developing countries through education and improved facilities.

West Coast Fieldstone

From the Ground Up

From The Ground Up not only implies that we quarry and fabricate natural stone but also deliver superior and ethical products to the professional building industry. The creation of our products have been and continue to be influenced by our customers for our customers.

Since 2005, our attention to detail in product design has been a result of years of focus groups and industry feedback. We have been evolving our products and programs by listening and fulfilling our customers expectations. What works for our customers; works for us!

We not only specialize in natural stone quarrying and fabrication but also in building and maintaining strong relationships with our distributors and dealer networks. Our network partners insure your products are delivered on time and on budget. We pride ourselves in the relationships we have built over the years which have enabled us to provide you with the highest quality of products and services you deserve.

With our products, you can be confident in the importance we place on quality control and customer service. Our strong and substantial relationships with our quarrying partners to our expert team of production and product specialists is our unique advantage. It's all about the value we bring to you! From The Ground Up.

Tuscan Ledge stone blended with Fieldstone

Certifiable quality

Pangaea® has 3 ISO certifications to insure Quality Management, Environmental Management and Occupational Health and Safety are at the forefront of our manufacturing process. 9001-2008, 14001:2015, 18001:2007 Certified.

Superior packaging

22% of additional stone in each crate versus our competitors due to our superior tooling and packaging systems. You get what you pay for!

We make it easy

We have **4 steps in our packaging process**. We Cut, Tool, Trim & Fit...so you don't have too!

Environmentally responsible

100% of our raw material waste which gets recycled into local infrastructure projects.
Recycle, reduce, reuse...of course!

We're available

600 dealer locations to serve you! You'll get by with a little help from our friends.

You can count on us!

135 Pangaea® team members dedicated to making a difference.

Stronger than the competition

Our West Coast stone is **5 1/2 times stronger** than the compressive strength of residential and commercial concrete. Quality should be measurable, not just a sales pitch...insured by our ASTM testing.

We've got you covered!

Over 500,000 ft²/lft of inventory available at any time to meet your needs...don't worry, we've got you covered!

7 Stone profiles to choose from...What's your Style?

GET A GRIP!

EXCLUSIVE
GripSet®
TECHNOLOGY

GripSet® Technology was pioneered by Pangaea® Natural Stone and is proprietary to our veneer products. **GripSet®** Technology increases the surface area where mortar is applied and increases the friction between the stone and the vertical substrate. The additional surface area and added friction allow the stone to attach quickly and proficiently.

Pangaea's **GripSet®** Technology is superior to any competitor's stone veneers that have a smooth back making their's much more challenging and time consuming to install.

Stone Veneers

Copper Canyon Ledgerstone

Ledgestone

Ultra-modern or timeless, whatever your concept, this stone style suits any interior or exterior application. Ledgestone's feature natural weathered-face, split face and hewn surface finishes. A popular choice for both residential and commercial projects.

Architectural Elements

Cambrian Slabs customized as stair treads featured with West Coast LedgeStone blended with Jumpers

Architectural Elements

Finish off your project in style. Pangaea® Natural Stone offers a line of architectural accessories that perfectly complement our wide range of stone cladding products and other manufactured stone veneers.

Whether you are looking to subtly blend in or boldly stand out, it's the little things that make all the difference.

Available in a variety of colors, architectural accessories from Pangaea® Natural Stone are designed to complement or contrast with virtually any stone finish.

Finishing details will set your project apart. If you are using two different siding products, Pangaea® Veneer Sills form a natural transition between siding finishes, while our Trim Stones and Keystones perfectly frame a window or highlight an archway. Looking to top off a wall or post? Pangaea® Wall and Post Caps are the natural solution.

Tired of those old cement steps or is your fireplace in need of a facelift? Our versatile Stone Slabs make an ideal stair tread while our Hearthstones are the natural fit for finishing off a fireplace renovation.

Make sure your home gets the finishing touches. Include architectural accessories from Pangaea® Natural Stone and leave a lasting impression!

Watertable Sills

A necessary component for proper moisture management, Pangaea® sills provide a clean finish and can be used as either a wainscot or window sill.

Commercial Applications

Commercial

Products that are backed by ASTM tests to insure longevity and reliability. Pangaea® Natural Stone Thin Veneers have withstood the stresses of gravity, wind, freeze-thaw cycles, thermal expansion and contraction just to name a few. You can be certain that our Thin Veneer products will meet and maybe even exceed your expectations for exterior performance.

Pangaea® Natural Stone Thin Veneers are not only characterized by their durability but also their permanence and beauty with steadfast colors and design flexibility. These attributes along with financial feasibility makes Pangaea® Natural Stone Thin Veneers the perfect choice.
