

# DrainAway®

When you think Rainscreen, Think DrainAway®

DrainAway® - An "L" shaped galvanized steel drainage strip, the perfect finishing solution for most Rainscreen wall assemblies. Its perforated bottom ledge allows for proper ventilation and vertical drainage of moisture along the base of a wall cavity in Rainscreen applications. Easy to install, DrainAway® is suitable for both commercial and residential use and can be used in conjunction with many exterior claddings including: manufactured stone veneer, thin natural stone veneer, thin brick slices, wood, vinyl, cedar, stucco and cementitious siding products.

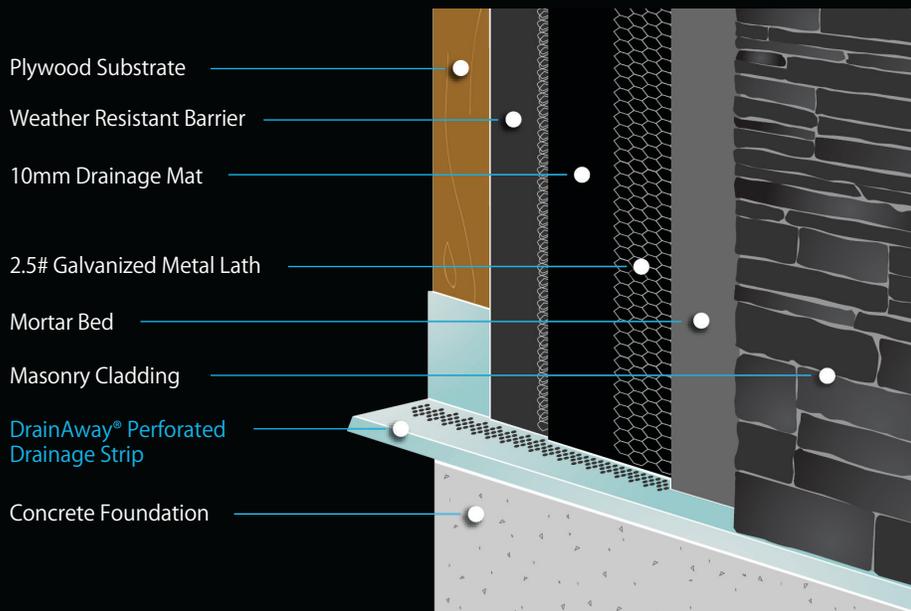

## DrainAway® - Feature Highlights:

- ✓ Permits efficient drainage of wall cavity
- ✓ Works as a great leveling strip and finished edge option
- ✓ Collaborates with rainscreen wall assemblies including - strapping and drainage mats
- ✓ Allows for effective ventilation of wall cavity
- ✓ Functions as bug screen protection
- ✓ Eliminates the need for weep screed

## Additional Product Specifications:

- ✓ 8' strip length
- ✓ 30 gauge galvanized steel
- ✓ 1/8" perforated hole diameter
